

Children's Village is happy to announce our new Infant Care program:

**CHILDREN'S VILLAGE**  
sharing wonder every day

# Infant Care

Children's Village's new infant program provides a safe, secure, warm and caring environment for your baby to grow and thrive. The program is welcoming infants ages 6 weeks and older, with full time or part time availability. There is one teacher for every four infants, and the program takes care to adhere to the highest quality of state and national standards.

Play and nurturing relationships are at the heart of the active learning curriculum in the infant program. Inspired by the HighScope curriculum, the teaching team guides early experiences toward a lifelong love of learning, at each child's individual pace. In close partnership and daily communication with parents, a consistent yet flexible schedule is followed to create an environment in which children feel loved and secure. The infant learning environment encourages movement, curiosity, exploration, and communication in all of its forms.

Please reach out if this is an opportunity you would like to explore for your child.
